MEMORANDUM FOR THE RECORD

SUBJECT: Evaluation of Writers Currently Assigned
to the CS Historical Program

1. The attached evaluations by the undersigned are on the basis of contacts with the writers and a review of the material they have submitted for comment or publication. In some instances there is not an adequate basis for judgment. The writer, for example, may be recently assigned to the program. Writers are encouraged to consult with us as their work progresses. Some do so but others do not, so that we are not able to form valid judgments until their completed work is submitted for publication. Some evaluations might be revised in the future but most of them are believed to be close to the mark.

2. A breakdown of the ☐ currently assigned writers is as follows:

25X1

Staff

Contract

Full time

Part time

Inactive

25X1

The amount of time devoted to the program by part time writers varies. Some make a minimal or token effort; others do a significant amount of work.
